

COLORS OF LUDOWICI

With over 50 designer colors and the ability to custom match nearly any hue, the color possibilities are endless. Our color glazes are kiln fired at extreme temperatures during production, fusing the color into the tile and ensuring that the original tones and hues are retained for generations.

IMPRESSIONIST SERIES BLENDS

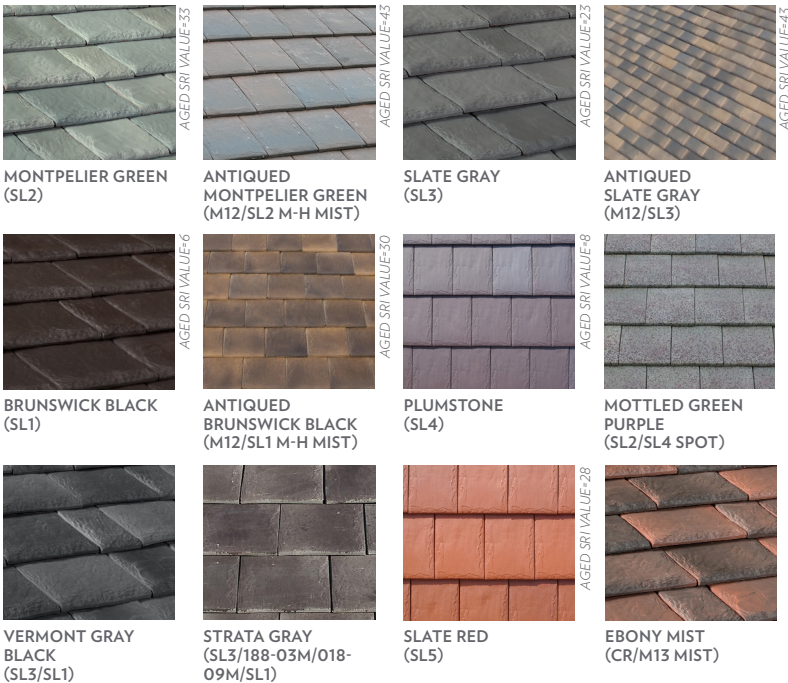

The Impressionist Series utilizes two or three complementary shades applied randomly over a base color to create the patina of a century old roof. Standard blends can be selected or custom blends can be created using different percentages of Impressionist Series colors. The Impressionist Series colors are available on all barrel, interlocking and shingle tiles excluding French.

SLATE AND SHAKE COLOR BLENDS

Ludowici offers slate and shake alternative products, including LudoSlate, Lexington Slate, LudoShake and Century Shake. These products offer all the beauty of natural slate and wood shake with the enhanced durability and longevity of terra cotta. While these products are available in Ludowici's standard color blends, we do recommend one of the authentic slate and shake color blends below.
